FOR IMPORTERS & EXPORTERS WORLDWIDE

OCEAN · AIR · ROAD

Trade moves both ways. So do we.

Your imports out of Asia. ⇄ Your exports to the world.

Cogoport is a **Singapore-headquartered global logistics platform** moving FCL, LCL, reefer and air freight through owned entities across Asia. For importers and exporters worldwide, we move **both directions of your trade** — the cargo you buy out of Asia and the cargo you sell into the world — on one platform, under one desk.

MEMBER OF

WCA · JCTRANS · GLA Global Logistics Alliance · Combined Logistics Networks · Global Air Cargo Alliance

Why both directions matter: the same desk that clears your inbound containers books your outbound ones — one contract, one dashboard and one invoice cycle across your whole trade, instead of two vendors who never speak.

Singapore HQ · Offices: Singapore · India · China · Hong Kong · Vietnam · Thailand · Indonesia · Malaysia · USA

BUILT WHERE CARGO ORIGINATES

Cogoport operates as **Cogo Universe Pte. Ltd.**, headquartered in Singapore, with **eight entities across Asia** and offices in Singapore, India, China, Hong Kong, Vietnam, Thailand, Indonesia, Malaysia and the USA. We run **in-house pricing desks in each origin market** rather than brokering from a single hub — which is why we can hold live, bookable rates across five origin markets at once.

Origins across Asia fan out worldwide. Owned desks in India, China and Southeast Asia deliver into South Asia, the Gulf & Red Sea, Europe, Africa, the Americas and Oceania — 192 countries served with vetted network partners at destination.

Exhaustive carrier coverage. 94+ relationships across shipping lines, airlines and NVOs — parallel options on every priority lane, so a tight sailing or uplift always has an alternative.

WHY IMPORTERS & EXPORTERS CHOOSE COGOPORT

Built from the shipper's standpoint — what your procurement, logistics and finance teams actually get when Cogoport moves the freight, in either direction.

One SPOC across origins

A named person in the origin market — not a ticket queue. One desk coordinates every origin you buy from.

Same-day firm quotes

POL, POD, equipment, commodity and readiness date in — **firm number with validity out, the same working day.**

CogoAssured space & price

Fixed-price, space-assured bookings bring **certainty to tight lanes and peak season** — not just an indicative rate.

Live rate discovery

Compare rates, routes, transit and carrier options across ocean and air in one place — so you can commit to a landed cost before you sign the PO.

Platform-backed visibility

Live status, milestone updates and shareable tracking links keep procurement, your warehouse and your buyer aligned without chasing.

Documents in one workspace

Booking notes, BL / AWB and invoices in one dashboard — behind a **97% on-time Bill of Lading record.**

Multi-currency settlement

Transact in USD or local currency — cleaner treasury and less conversion cost on every transaction.

Straight answers

If space or equipment is not available on a lane, **you hear it immediately** — not once your production line or your buyer is already counting on it.

THE ENQUIRY THAT STARTS EVERYTHING

Send five data points –

POL · POD · Equipment · Commodity · Readiness date

→ FIRM NUMBER, SAME WORKING DAY

A logistics partner, not a spot quote. Cogoport works on repeat lanes and protected pricing — the goal is your next hundred shipments, not this one booking.

A COMPLETE SERVICE SET, ALL THREE MODES

Everything the shipment needs, on one platform — priced by our own desks, executed by our own offices at origin, and tracked in one place.

01 Ocean — FCL, LCL & reefer
Full and less-than-container across priority lanes, with parallel carrier options per lane — a tight sailing usually has an alternative, not a delay.

02 Air freight
Time-critical cargo across Asia gateways — express and deferred, airport-to-airport or to door, with local airport support.

03 Road & inland haulage
FTL, LTL, container drayage and first & last mile — plus rail where it wins on cost or carbon.

04 Customs & compliance
Clearance, CFS, warehousing and documentation — everything needed to complete the chain at origin and beyond.

05 Trade-lane intelligence
Rate benchmarks, transit alternatives and carrier comparisons drawn from live shipment activity — not static tables.

06 Contract & repeat programs
Annual rate agreements, allocation on your regular lanes and priority when space tightens — so budgeting does not restart every month.

ONE BOOKING, END TO END — WITH FULL TRACKING

THE JOURNEY — ENQUIRY TO SETTLEMENT

- **Enquiry**
  POL · POD · equipment · commodity · readiness date.
- **Firm quote — same working day**
  A bookable number with validity, not an indication.
- **CogoAssured booking**
  Space and price locked, held through peak.
- **Origin execution**
  Pickup, customs, CFS and documentation at origin.
- **In transit — live milestones**
  Ocean or air, tracked and shareable in real time.
- **Delivery to you**
  Your warehouse, your buyer, your delivery window.
- **e-POD & settlement**
  Documents in one workspace · USD or local currency.

Shareable tracking link — your customer follows along, no login needed.

The first shipment is the pitch. Give us one lane and judge us on the number, the space and the paperwork — then scale what works.

CARGO WE MOVE EVERY DAY

Cogoport moves cargo for manufacturers, traders and distributors across solar, electronics, chemicals, white goods, textiles, engineering, automotive and refrigeration — **companies that ship the way you do: repeat lanes, tight windows and real volume.** Live volume across these sectors out of India, China and Southeast Asia every day — hand us a lane and we are not learning it from scratch.

SECTORS WE SERVE

Solar & Renewables · **Electronics** · **Chemicals** · **White Goods** · **Engineering** · **Textiles** · **Automotive** · **Agriculture** · **Industrial**

Let's build priority lanes together — in both directions.

One desk across Asia origins, CogoAssured space, same-day firm quotes, every Incoterm and multi-currency settlement — on the cargo you import and the cargo you export. Built for importers and exporters who want a logistics platform, not a quote.

01 · SHARE
Your top lanes, modes and volumes — imports and exports.

02 · MAP
We map them to live rates, space and origin capability.

03 · TEST
Send live RFQs and judge the numbers under an agreed SLA.

04 · SCALE
Protected pricing, SOPs and a steady operating cadence.
